SILVELOX

DESIGN DOORS

Silvelox Design door è il marchio per il residenziale che rappresenta l'eccellenza nella realizzazione di porte per garage, porte d'ingresso blindate, portoni ad ante e sistemi d'architettura.

La proposta di Silvelox si distingue da oltre 60 anni per la capacità di creare soluzioni inedita in cui le più innovative tecnologie antieffrazione incontrano la massima cura per il design, i materiali e le finiture insieme ad una particolare attenzione per l'risparmio energetico e l'abbattimento acustico.

L'azienda ha così reinventato nel corso della sua storia il concetto di porta, trasformandola in un sistema su misura evoluto e tecnologico protagonista del progetto architettonico.

Grazie ad un profondo savoir-faire artigianale e a un processo produttivo interno che garantisce la massima flessibilità, Silvelox offre ad offrire un vasto catalogo in continuo sviluppo, si propone sul mercato globale come fornitore attento e puntiglioso di sviluppare soluzioni completamente customizzate.

Silvelox è un brand e una business unit di Silvelox Group spa con sede a Castelnuovo e vanta una posizione di leader di mercato sia in Italia che all'estero.

Silvelox Design door represents the manufacturing excellence in garage doors,

security entrance doors and architectural systems. Silvelox proposal has been standing out for over 60 years thanks to the ability to create new solutions in which the various product performances (thermal brake, burglar proof, acoustic abatement, fire rating), meet the highest level of care for design, materials and finishings. The company, throughout its history, has been focusing on re-thinking the concept of "door" transforming it into a highly advanced and technological custom-made system which is the centerpiece of any architectural project.

Thanks to a handcrafted know-how and an internal production process that guarantees maximum flexibility, Silvelox, in addition to its vast catalogue of products which is continuously evolving, distinguishes itself in the global market as an attentive and punctual supplier able to develop bespoke solutions. Silvelox is a brand and a business unit of Silvelox Group Spa based in Castelnuovo (TN), and can boast of its position as market leader both in Italy and abroad.

Il legno è la materia prima con cui ogni porta viene realizzata.
Wood is a prime constructive material.

Attente lavorazione manuale e cura a fondo qualità.

We provide careful craftsmanship to achieve greatest quality.

Come in sarto, l'azienda Tanica e cuse* il prodotto su misura del desiderio del cliente.

Our products are tailored made to match client's expectations.

La garanzia di qualità di una porta Silvelox è certificata, ogni porta viene collaudata prima della spedizione.

Every Door is manufactured, assembled and finally tested to guarantee the best quality.

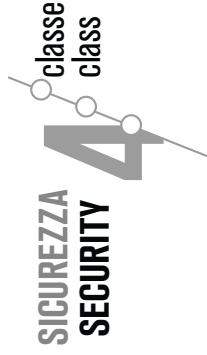

PIVOT

Pivot è la porta d'ingresso blindata Silverbox con sistema di apertura a bilico che permette di gestire grandi dimensioni di porte per ingressi di prestigio e di forte personalità. Una soluzione funzionale ed elegante che grazie a un sistema di apertura pivotante che ruota intorno al proprio asse verticale, non necessita di stipiti integrandosi perfettamente a ogni facciata e parete. Le cerniere sono inoltre integrate nel pannello garantendo la massima funzionalità senza intaccare l'estetica. Pivot permette anche la posa a filo muro sia sul lato interno che sul lato esterno. Disponibile in una vasta gamma di estetiche e finiture a collezione.

Pivot is an entrance door with a pivoting opening system which makes it possible to manage large-size doors for imposing entrances endowed with a strong personality. A functional, stylish solution which does not require any jambs, fitting all facades and walls perfectly, thanks to a revolving opening system rotating around its own vertical axis. The hinges are also inserted in the panel, ensuring a high degree of functionality in compliance with the maximum level of architectural precision.

LE UNICITÀ DI **PIVOT** UNIQUE POINTS OF DISTINCTION

Protection level assures the highest levels of security against break in, made by an expert burglar that could also use drills, saws, hatches, hammer etc. They are particularly suitable for main entrances of villas, detached houses or shops at risk.

Il livello di protezione della Classe 4, garantisce la resistenza della porta a tentativi di scasso rumoroso ed insistente da parte di uno scassinatore esperto che può utilizzare anche travani, segne, asce, martelli ecc. è indicata per ingressi principali di ville, case isolate o negozi a particolare rischio di scasso.

The innovative patented system from Silvelox to triple REBATE with triple fold provides high performance of sound and thermal isolation.

L'innovativo sistema brevettato da Silvelox a tripla battuta garantisce prestazioni antifraude eccezionali ed elevate performance di isolamento acustico ed efficienza termica.

SISTEMA CILINDRI DI SICUREZZA **SAFETY CYLINDERS SYSTEM**

CERNIERA A BILICO BREVETTATA CON REGOLAZIONE 3D PIVOTING OPENING SYSTEM

Sistema di apertura pivotante che ruota intorno al proprio asse verticale, non necessita di stipiti integrandosi perfettamente a ogni facciata e parete. Le cerniere sono inoltre integrate nel pannello garantendo la massima funzionalità senza indorcamo l'estetica. La cerniera ha una regolazione laterale che non necessita lo smontaggio del pannello ma può essere fatta con delle chiavi di regolazione a porta montata.

Pivoting opening system that rotates around its vertical axis, does not require jambs integrating perfectly with each facade and wall. The hinges are also integrated into the panel ensuring maximum functionality without affecting its appearance.

FERMAPANNELLO CON VITI DI FISSAGGIO A SCOMPARSA HIDDEN INTERNAL DECORATIVE WITH FIXING SCREWS PANEL HOLDER

I pannelli di rivestimento della porta sono fissati con una speciale lavorazione sul pannello che permette di nascondere il profilo di fissaggio alla vista esterna. Ne deriva una assoluta pulizia estetica sia sul lato interno che sul lato esterno della porta.

The door lining panels are fixed with a special working on the panel that allows to hide the fixing profile to the external view. The result is an absolute aesthetic cleanliness of the panels both on the inside and on the outside of the door.

GRANDI DIMENSIONI PER UN INGRESSO DI PRESTIGIO LARGE-SIZE DOOR FOR IMPOSING ENTRANCES ENDOWED

Piùvot è la porta blindata che non conosce limiti: ideale per le grandi dimensioni, è il connubio perfetto tra tecnica e design. Dotata di apertura a bilico e compagnarre al muro, può raggiungere i 200 cm di larghezza e i 300 cm di altezza nella configurazione standard.

Piùvot is the safety door that knows no limits: ideal for large sizes, it's the perfect combination of technology and design. Equipped with pivoting opening and coplanar with the wall, can reach up to 200 cm of width and 300 cm of height in its standard single leaf.

PIVOT

RIVESTIMENTI COVERINGS

Shelox, duttile e sensibile alle richieste della clientela più esigente, offre l'opportunità di creare porte su disegno del progettista, del cliente finale o dello staff tecnico interno, compatibilmente con le caratteristiche tecniche costruttive e le modularità dei pannelli componibili.

Shelox offers a wide range of coverings applicable to all security structures of entrance doors. In addition to the different aesthetic lines and models shown in this catalogue, it's possible to customize your own door in every single detail creating unique solutions.

DESIGN
NEWMAN

The new Sivelox collection of entrance doors covering stems from an

inspiration from the Milan based architectural firm Buratti Architetti that found in the artistic creativity of one of the most important post-war American artists its realization, Solomon "Sol" LeWitt (1928-2007), exponent of the Minimal Art.

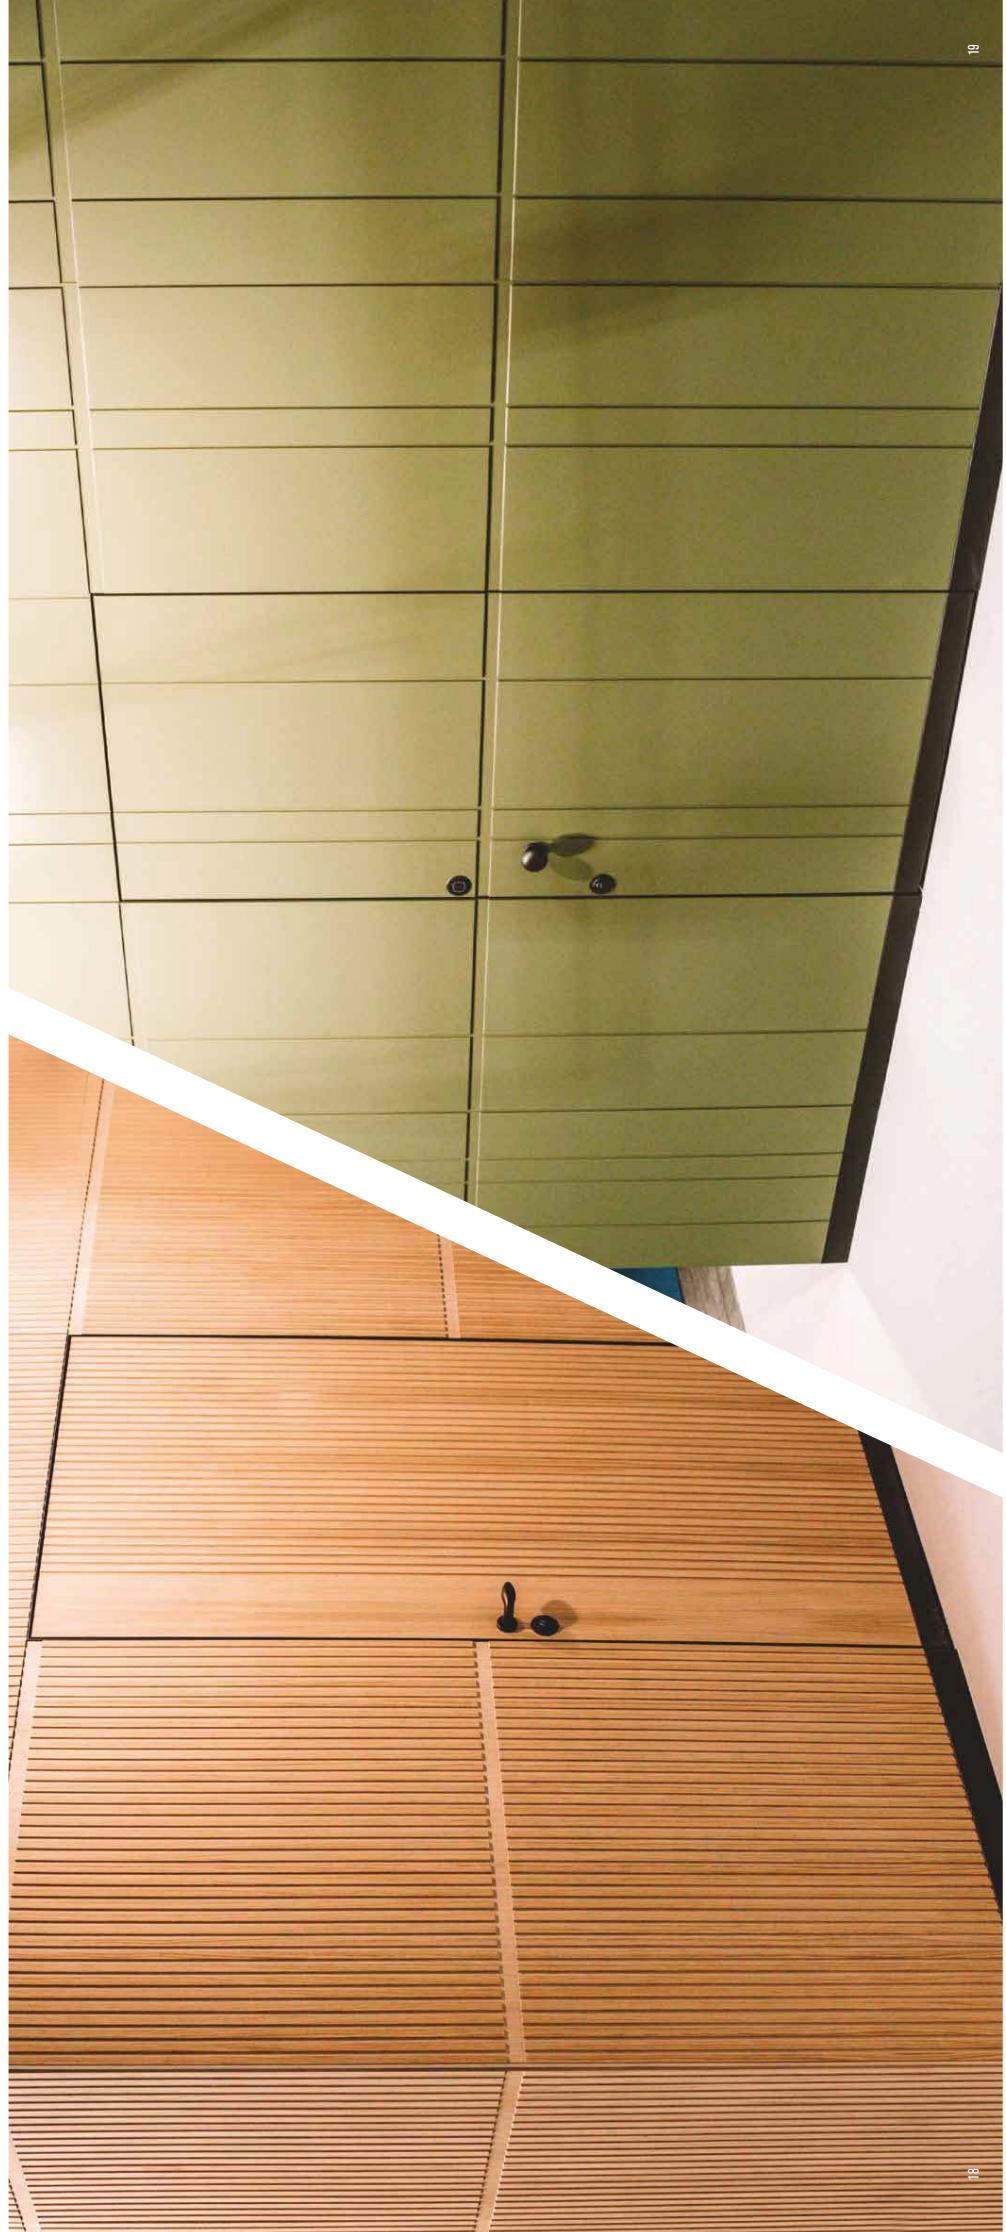

Like the artist's works, the new Millerighe collection finds in generic regularity the starting point for experimenting with new forms through aesthetics that, reinterpreting the classic theme of the vertical full-empty rhythm in a contemporary key, manage to create a perfect balance with the living context in which they are inserted.

La nuova collezione di estetiche per porte d'ingresso a marchio Sivelox nasce da un'ispirazione dello studio di architettura milanese Buratti Architetti che ha trovato nella creatività artistica di uno dei più importanti artisti americani del dopoguerra la sua concretizzazione, Solomon "Sol" LeWitt (1928-2007), esponente della Minimal Art. Come le opere dell'artista la nuova collezione Millerighe trova nella regolarità geometrica il punto di partenza per sperimentare nuove forme attraverso estetiche che, reinterpretando in chiave contemporanea il tema classico del ritmo verticale pieno-vuoto, riescono a creare un perfetto equilibrio con il contesto abitativo in cui vengono inserite.

La collezione Newman trova ispirazione dall'artista Barnett Newman (1905-1970) e dal suo stile caratterizzato da zone variegate di colore separate da linee verticali che formano rapporti armonici di soffile equilibrio e che tendono a dilatare lo spazio. Il ricerato ritmo delle composizioni di linee verticali sono l'espressione di un design moderno e accattivante che nelle estetiche per porte per garage e porte d'ingresso Sivelox modernizzano l'ambiente in cui vengono inserite.

The Newman collection finds inspiration from the artist Barnett Newman (1905-1970) and from his style characterized by variegated areas of color separated by vertical lines that form harmonic relationships of subtle balance and which tend to expand the space. The sophisticated rhythm of the compositions of vertical lines are the expression of a modern and captivating design that in the Sivelox aesthetics for garage doors and entrance doors modernize the environment in which they are inserted.

TECNOLOGIA DOOR AUTOMATION

L'arricchimento della base meccanica delle serrature con componenti elettronici di ultima generazione permette di rendere intelligente, e soprattutto più pratico e sicuro l'accesso all'abitazione. A seconda delle esigenze, si può scegliere tra un'apertura dall'esterno con lettore transponder (TAG) o una tastiera a codice numerico retroilluminata, per una visione ottimale anche notturna.

Lettore transponder (TAG): con questo sistema elettronico la serratura si apre semplicemente avvicinando alla mofetta esterna la chiave elettronica. Tastiera a codice numerico: il codice numerico digitato (fino ad un massimo di 8 cifre) viene elaborato dal processore della scheda elettronica e, se riconosciuto valido, genera l'apertura della porta.

Altri accessori complementari sono:

- Lettore di impronte
- Dispositivo di apertura da apparecchio telefonico.

The mechanical locks with electronic control allows intelligent and safe operation.

According to the specific needs, you can choose an external opening with transponder reader (TAG) or a backlit numeric pad for an optimum sight, also at night.

Transponder reader (TAG): with this electronic system the lock opens simply bringing the electronic key close to the external plate.

Number pad: the numerical code (for a maximum of 8 figures) is controlled electronically by the processor. Other additional accessories are:

- Fingerprint reader
- Opening by phone.

CONDIZIONI GENERALI DI VENDITA GENERAL SALES TERMS

1 - OGGETTO E AMBITO DI APPLICAZIONE DELLE PRESENTI CONDIZIONI GENERALI

1.1 - Le presenti condizioni generali disciplinano tutti gli attuali e futuri rapporti contrattuali tra Shivelox Group SpA e la parte acquirente relativa alla fornitura di porte, pontoni, chiavi industriali e residenziali, componenti e ricambi. Essere devono essere coordinate con le condizioni speciali eventualmente concordate per l'acquisto dalle parti o inserite nella conferma scritta di Shivelox Group SpA, piaza di accettazione dell'ordine.

1.2 - A meno che non siano state specificamente approvate per iscritto da Shivelox Group SpA dormente, invece, riferiscono al lettore le condizioni generali o speciali difformi riportate o richiamate dal Cliente nelle sue comunicazioni a Shivelox Group SpA.

2 - FORMAZIONE DEL CONTRATTO

2.1 The terms and conditions shall govern all current and future contractual relations between Shivelox Group SpA, and the purchaser concerning the supply of doors, gates, industrial and residential doors, components and spare parts. They must be coordinated with any special conditions as may be agreed in writing by the parties or included in the Shivelox Group SpA written order confirmation.

2.2 If the conditions indicated in the Customer's order differ from those in the Shivelox Group SpA's written confirmation, the latter shall be considered as a new proposal and the contract shall come into effect when the customer starts to execute it with the express written approval.

2.3 Any further Shivelox Group SpA's offer shall be deemed valid only within the stated period of time and exclusively for the complete supply the offer rates.

2.4. The Customer acknowledges that the material affects the price more than a 50% and that this material is bought by Shivelox Group SpA at non constant prices. The Customer accepts to transfer on itself the risk of any price increase if, for reasons not attributable to Shivelox Group SpA, the execution of the material production may be delayed more than 6 months. It follows that Shivelox Group SpA, is entitled to increase the sales price of the same percentage of the purchase cost as increase at the moment of the subscription of the order.

3 TECHNICAL DATA AND DOCUMENTS CONCERNING THE SUPPLY AND MODIFICATIONS

3.1 Data and illustrations reported in catalogues, brochures, circulars or other illustrative documents issued by Shivelox Group SpA shall be considered as indicative. These data shall not be binding unless expressly mentioned as such in the Shivelox Group SpA's order confirmation.

3.2 Shivelox Group SpA, declines any responsibility about measures not made on site by Shivelox Group SpA personnel, any variations, modifications and problems generated by measurement mistakes shall be borne entirely by the Customer.

3.3 Shivelox Group SpA reserves the right to make any changes to its own products that it considers appropriate at any time, informing the Customer if they involve the installation.

3.4 If the Customer proposes some changes to the products, they can be made only if there is a fully written agreement between the parties about the variations that these changes may cause to the previously established prices and delivery terms. Prices may vary if the ordered quantities are reduced or a more prompt delivery is required.

3.5. In case of cancellation or modifications of already confirmed orders (confirmation countersigned by the customer), in addition to 3.4, Shivelox Group SpA shall charge the Customer 70€ for additional management costs and a sum to be established to cover any already incurred costs for the production of the door.

3.6 The Customer shall expressly undertake not to use trawnings, technical data and information to the supply or for reasons other than those provided in the supply contract since the same data shall remain exclusively Shivelox Group SpA's property and the Customer cannot deliver them to a third party nor reproduce them without written permission.

3.7 The Customer shall inform Shivelox Group SpA, in pre-contractual stage, about any special rules to be observed in the country of final destination of the goods to be supplied.

4 PAYMENT

4.1 Unless otherwise indicated, the payment shall be effected by the Client within the term indicated on the invoice even if the goods is stored at its warehouse, Shivelox Group SpA will install it only on a written request of the Customer with a 15 days notice, will charge the costs of the warehousing of the goods and it reserves the right to recoup the installation cost.

4.2 The price established in the order confirmation is valid for the installation without interruptions provided that the customer totally fulfills its burdens, which are the practicability of the site, electric energy, supply power line that reaches Shivelox Group

1 PURPOSE AND SCOPE OF THESE GENERAL TERMS AND CONDITIONS

1.1 These terms and conditions generally regulate all current and future contractual relations between Shivelox Group SpA, and the purchaser concerning the supply of doors, gates, industrial and residential doors, components and spare parts. They must be coordinated with any special conditions as may be agreed in writing by the parties or included in the Shivelox Group SpA written order confirmation.

1.2 Unless specifically approved in writing by Shivelox Group SpA, different general or special conditions included or referred to by the Customer in its communications to Shivelox Group SpA shall however be deemed null and void.

2 THE FORMATION OF THE CONTRACT

2.1 The supply contract is concluded with a written confirmation by Shivelox Group SpA, which is countersigned and sent back by the Customer.

2.2 If the conditions indicated in the Customer's order differ from those in the Shivelox Group SpA's written confirmation, the latter shall be considered as a new proposal and the contract shall come into effect when the customer starts to execute it with the express written approval.

2.3 Any further Shivelox Group SpA's offer shall be deemed valid only within the stated period of time and exclusively for the complete supply the offer rates.

2.4. The Customer acknowledges that the material affects the price more than a 50% and that this material is bought by Shivelox Group SpA at non constant prices. The Customer accepts to transfer on itself the risk of any price increase if, for reasons not attributable to Shivelox Group SpA, the execution of the material production may be delayed more than 6 months. It follows that Shivelox Group SpA, is entitled to increase the sales price of the same percentage of the purchase cost as increase at the moment of the subscription of the order.

3 TECHNICAL DATA AND DOCUMENTS CONCERNING THE SUPPLY AND MODIFICATIONS

3.1 Data and illustrations reported in catalogues, brochures, circulars or other illustrative documents issued by Shivelox Group SpA shall be considered as indicative. These data shall not be binding unless expressly mentioned as such in the Shivelox Group SpA's order confirmation.

3.2 Shivelox Group SpA, declines any responsibility about measures not made on site by Shivelox Group SpA personnel, any variations, modifications and problems generated by measurement mistakes shall be borne entirely by the Customer.

3.3 Shivelox Group SpA reserves the right to make any changes to its own products that it considers appropriate at any time, informing the Customer if they involve the installation.

3.4 If the Customer proposes some changes to the products, they can be made only if there is a fully written agreement between the parties about the variations that these changes may cause to the previously established prices and delivery terms. Prices may vary if the ordered quantities are reduced or a more prompt delivery is required.

3.5. In case of cancellation or modifications of already confirmed orders (confirmation countersigned by the customer), in addition to 3.4, Shivelox Group SpA shall charge the Customer 70€ for additional management costs and a sum to be established to cover any already incurred costs for the production of the door.

3.6 The Customer shall expressly undertake not to use trawnings, technical data and information to the supply or for reasons other than those provided in the supply contract since the same data shall remain exclusively Shivelox Group SpA's property and the Customer cannot deliver them to a third party nor reproduce them without written permission.

3.7 The Customer shall inform Shivelox Group SpA, in pre-contractual stage, about any special rules to be observed in the country of final destination of the goods to be supplied.

4 PAYMENT

4.1 Unless otherwise indicated, the payment shall be performed by Shivelox Group SpA directly or through specialized companies which are charged by Shivelox Group SpA at the Customer's expense.

4.2 The Customer shall pay the products in opera, the test for the single product shall be carried out at the end of the installation and it will be done within 5 working days after the end of the installation. If a post-project test is required it must be done within 15 working days after the completion of the installation and it will be carried out by the Customer. If this could not be carried out within these terms for circumstances beyond Shivelox Group SpA's goodwill and care, the works will be equally considered complete and Shivelox Group SpA will proceed with the invoice.

4.3 If the Customer, for reasons of its own, asks to delay an installation, Shivelox Group SpA will proceed with the invoice even if the goods is stored at its warehouse, Shivelox Group SpA will install it only on a written request of the Customer with a 15 days notice, will charge the costs of the warehousing of the goods and it reserves the right to recoup the installation cost.

4.4 The price established in the order confirmation is valid for the installation without interruptions provided that the customer totally fulfills its burdens, which are the practicability of the site, electric energy, supply power line that reaches Shivelox Group

additional charges shall not be included in the price unless otherwise indicated in the Shivelox Group SpA's written confirmation.

4.3 The following works are also excluded, unless expressly specified in the offer and in the order confirmation:

- 1) Construction or installation of building works, electrical connections, plates, intards, special fastening brackets, works able to remedy any building defects.
- 2) Disassembly of any doors already installed in the workshop.
- 3) Availability of lifting, unloading and handling equipment, in particular in the case of assemblies on raised ground floors and with higher than 550 mm doors.
- 4) Disposal of processing and packaging waste on site.
- 5) Responsibility for the safekeeping of products and materials which are delivered to the site.

5 DELIVERY

5.1 Unless otherwise agreed, the goods shall be delivered Ex Works, standard delivery or fittering, unloading and handling equipment, in particular in the case of assemblies on raised ground floors and with higher than 550 mm doors.

5.2. Unless otherwise expressly agreed, the goods, even if sold free delivery are always delivered at the risk of the Customer, who will have to verify the goods at their arrival and complain to the deliverer about any mechanical failure, shortage or defect through annotation on the Transportation Document; otherwise, the right to raise exceptions will be lost. The goods must be returned with motor vehicles, the unloading and any following sorting must be done with adequate equipment and sufficient personnel, made available by the Customer.

5.2. The material delivery to the customer or to the carrier shall release Shivelox Group SpA from the delivery commitment and all the risks on the materials shall pass to the consumer even if Shivelox Group SpA is responsible for shipping or installation.

5.3 Delivery times shall be considered as indicative and shall indicate, barring unforeseen circumstances, the work week in which it will take place; any stringent delivery must be agreed with the sales office and specified in writing. They shall be deemed accepted, however, only if explicitly confirmed on our order confirmation. In addition, if the parties had agreed that, in case of delayed delivery, Shivelox Group SpA must pay an amount as a penalty and the Customer shall not request any greater amount as compensation for the damages caused by the delay.

5.4 Unless otherwise agreed by the parties, they shall start to run from the conclusion of the contract, unless the Customer has to pay part of the price as a deposit. In this case the starting date is suspended until he has paid.

5.5 Delivery times are automatically extended:

- 1) if the Customer does not provide on time data or information necessary for the supply or requests any changes during the execution or it late in answering to the request for approval of Shivelox Group SpA's order confirmation;

2) if circumstances beyond Shivelox Group SpA's goodwill and care, including delays of subcontractors, prevent the delivery on time or make it prohibitively expensive.

5.6 In the event that the Customer is not in order with the payments relating to other supplies, the starting date is suspended and Shivelox Group SpA may delay the deliveries until the customer has not paid the amount due.

5.7 The terms of delivery are established at behalf of Shivelox Group SpA, therefore the Customer may not refuse to take delivery of the goods before the set date.

5.8 Except as provided in the following art. 11, in the case that the Customer fails to take delivery of the goods for reasons for which he is liable or otherwise, for reasons beyond the Shovelox Group SpA's goodwill, after 30 days from the communication of readiness of the goods this Customer shall bear the risks (any complaint for damaging shall not be accepted) and the costs or their safekeeping, a rate of 5 € a day starting from the 31st day of warehousing.

6 TESTS AND ASSEMBLY

6.1 Installation and test, if required, shall be performed by Shivelox Group SpA directly or through specialized companies which are charged by Shivelox Group SpA at the Customer's expense.

6.2 The Customer shall pay the products in opera, the test for the single product shall be carried out at the end of the installation and it will be done within 5 working days after the end of the installation. If a post-project test is required it must be done within 15 working days after the completion of the installation and it will be carried out by the Customer. If this could not be carried out within these terms for circumstances beyond Shivelox Group SpA's goodwill and care, the works will be equally considered complete and Shivelox Group SpA will proceed with the invoice.

6.3. If the Customer, for reasons of its own, asks to delay an installation, Shivelox Group SpA will proceed with the invoice even if the goods is stored at its warehouse, Shivelox Group SpA will install it only on a written request of the Customer with a 15 days notice, will charge the costs of the warehousing of the goods and it reserves the right to recoup the installation cost.

6.4. The price established in the order confirmation is valid for the installation without interruptions provided that the customer totally fulfills its burdens, which are the practicability of the site, electric energy, supply power line that reaches Shivelox Group

manuali di installazione, uso e manutenzione; non sono invece compresi manuali di installazione delle chiavi forti, speciùli e speciali collaudi, corsi di addestramento, assistenza all'avviamento e tutte le prestazioni e gli oneri eventualmente non menzionati nella conferma scritta di Shivelox Group SpA.

8 - GARANZIA

8.1 - Silex Group Spa garantisce la conformità dei prodotti forniti, intendendosi cioè che i prodotti sono privi di difetti nei materiali al lavoro e che sono conformi a quanto stabilito da specifico contratto accettato dalle parti, ciò sarà garantito dal collocamento funzionale che avverrà al termine delle opere.

8.2 - La garanzia legale del prodotto è valida per un periodo di due anni (24 mesi) che decorrono dalla data di compilazione del certificato di verifica iniziale, rilasciato al momento dell'installazione, e verrà estesa gratuitamente dall'installatore al momento della messa in funzione del prodotto.

Il certificato di verifica iniziale è contenuto nel manuale di istruzione allegato al prodotto e deve essere definitivamente compilato dall'installatore e consegnato all'utente finale.

8.4 - La Silex Group Spa non si assume alcuna responsabilità per danni a cose o persone in seguito a:

- uso non regolare e / o improprio del prodotto con la mancata messa in opera delle manutenzioni ordinarie;
- Lavori di installazione e montaggio non effettuati correttamente;
- Installazione su strutture portanti non adeguate;
- Utilizzo di elementi di ancoraggio non idonei;
- Importante sollecitazione ai parti di ricambio non originali;
- Qualsiasi modifica e riparazione dei prodotti non autorizzata;
- Tagliando di Garanzia allegato al manuale di istruzioni, dove essere rispettato alla Silex Group Spa entro 30 giorni dalla data dell'installazione.

8.6 La Garanzia è rivolta solo per i componenti del prodotto forniti dalla Silex Group Spa, la quale si impegna a sostituire e riparare gratuitamente ogni componente che dovesse presentare difetti di fabbricazione. Eventuali costi per lo smontaggio, la reinstallazione, la spedizione per la restituzione sono a carico del cliente.

8.7 Il materiale in garanzia verrà spedito alla Silex Group SpA Franco Fabbrica di produzione. Salvo ricevere indicazioni illecite per l'ispezione, i materiali sostituiti dovranno essere resi disponibili alla stessa destinazione. I trasporti del materiale in sostituzione (compresa la rimessa al resto del materiale difettoso) saranno a carico del cliente.

8.8 L'entità finale deve poter restituire l'attestazione di avvenuta verifica iniziale per istruzione delle prestazioni gratuite inerenti al prodotto di garanzia.

8.9 La garanzia di costituzione degradata in caso di mancata osservanza delle indicazioni contenute nel manuale di installazione e di utilizzo del prodotto.

8.10 Eventuale sostituzione in garanzia può essere realizzata con prodotti equivalenti agli originali che non sono avere aspetto diverso perché realizzati con materiali differenti e contenenti modifiche costruttive.

8.11 Qualsiasi intervento e/o sostituzione riconosciuto in garanzia non proroga i termini di scadenza della garanzia sul prodotto e non autorizza la sospensione dei pagamenti pattuiti.

La Silex Group spa non si assume alcuna responsabilità per danni a cose o persone in seguito alla normale usura di parti che, per loro natura, sono soggette a degrado rapido e continuo, pertanto la garanzia non è valida per:

- Danni causati da uno scarreto utilizzo dei prodotti;
- Danni causati da manomissione o guasti derivati dalla rete di alimentazione elettrica;
- Danni causati da manomissione o varie dovute ad inavvertenze da parte di personale non qualificato, tra cui la rimozione dei sistemi di sicurezza obbligatori;
- Danni verificatisi durante il trasporto o ilerri e inadeguata conservazione del prodotto;
- Danni causati dalla mancata o errata assezzione delle istruzioni, tra cui la manutenzione ordinaria, previste nel manuale di istruzioni;
- Danni sui prodotti a cui siano state asportate le etichette identificative apposte dal costruttore;

• Danni causati dall'utilizzo di accessori e/o parti di ricambio non originali e non autorizzati dalla Silex Group SpA;

• Danni causati da una installazione eseguita non correttamente;

• Danni causati da eventi straordinari (incidenti, inendi, calamità naturali, atti vandalici, smisuri in genere);

• Danni verificatisi nel caso che la motorizzazione e l'autonomia siano eseguite dal committente;

• In caso di prodotti affittati se ordinati in momenti diversi non si garantisce la stessa tonalità perché il legno porrebole cambierà direttamente al momento della verniciatura e nei panelli o le lamiere il fornitore potrebbe apportare modifiche in questo momento;

10 - RESTITUZIONE DEL RESSI
10.1 - Silex Group spa nell'intento di migliorare e il servizio reso alla clientela, e nella prospettiva di raggiungere la certificazione di qualità UNI EN ISO 9001, ha varato un

S.p.A., in agreement with the Customer, deems more appropriate to carry out the work necessary for the replacement or the repair on the customer's premises, the latter shall bear the travel and accommodation expenses of the technical staff made available by Silex Group SpA and shall provide all the facilities and the auxiliary staff required to carry out the work quickly and safely. The warranty shall expire whenever the products have been modified or repaired or have received an insufficient maintenance or have been molti ed / o repaired without the Silex Group SpA's permission. Moreover, Silex Group SpA shall not be held responsible for the fact of conformity of its products due to ordinary wear of those parts which are normally subject to rapid and continuous wear.

8.8 - The Customer shall be required to notify the particular climate and/or weather conditions to which the Silex Group SpA products may be subject (e.g. sea salt, attack or continuous and direct exposure to sunlight, especially for the lacquer colours such as RAL 5010-BAL8019-RAL8005-RAL8006-RAL9006). The specific anomaly of industrial doors which have air bubbles between the insulating pre-product and the re-painted sheet, which does not prevent the perfect function of the doors them-selves, shall be solved, at Silex Group SpA's discretion, by employing the air bubble or replacing the defective panel.

9 - MANAGEMENT OF RETURNS

9.1 In order to improve the service to its customers and with the intention of reaching the UNI EN ISO 9001 certification quality, Silex Group SpA launched a document that governs the procedure for the management of returns from customer, which shall then have the following provisions: for each product (or part thereof) for which you want to return goods to Silex Group SpA, both for repair/modification/replacement under warranty and for rapid/modification/replacement that shall be filled, a written request shall be made and documented to our sales office, showing the details of the non-conforming material (number and date of documents, product code) and the documented reasons of non-compliance (pictures and/or other information).

9.2 Our persons in charge will have checked the responsibility of the noncompliance, shall answer using the return authorization form and specifying the panel(s) or "shimmering" on the border of the narrative, delle cassette a dei profili maschio-femmina causati dallo sfiancamento del rivestimento in materiale plastico. Questo fenomeno è da riferirsi alla norma di investimento del prodotto. Questo fenomeno è da riferirsi alla norma di investimento del prodotto che si è obbligo del soggetto ferito che limita la motorizzazione funzione di terza. Sfiorca la trolley del risalto e farne la propria certificazione e matrice CE.

9.3 Per i prodotti installati in rete costiere a che sono soggetti a condizioni climatiche aggressive è necessario proteggere i materiali idonei e/o protezioni specifiche.

• I pannelli delle sezioni realizzati con rivestimenti simili legno possono presentare dei legeri "sfiancamenti" sui bordi delle nervature, delle cassette a dei profili maschio-femmina causati dallo sfiancamento del rivestimento in materiale plastico. Questo fenomeno è da riferirsi alla norma di investimento del prodotto. Questo fenomeno è caratteristico del processo di produzione e non costituisce un difetto del prodotto.

• I pannelli delle sezioni realizzate con lamierine e non gommificate possono presentare delle lievi ondulazioni. Questo fenomeno è caratteristico del processo di produzione e non costituisce un difetto del prodotto.

• Lievi cambiamenti di colore del prodotto che si possono verificare nel corso del tempo a seguito dell'esposizione alla luce solare, sono fisiologici e non costituiscono un difetto nel prodotto.

• I pannelli realizzati con lamine di tonalità scure con l'esposizione al sole raggiungono temperature molto elevate. Questo fatto provoca un'apprezzabile dilatazione termica del metallo che può compromettere la deformazione temporanea delle amiere. Questo fenomeno pur pregiudicando il corretto funzionamento del portone non è eliminabile e non costituisce un difetto del prodotto.

9.4. In any case, the returned nonconforming products must be always complete, not damaged and they must be with the original packaging, unless one of these requests is part of the notified defect; if the returning products are incomplete, damaged or without the original packaging, the reparation costs or, in case of emergency, the warranty will be claimed and the costs will be charged to the Customer.

10 - LIABILITY OF SUPPLIER

10.1 Silex Group SpA shall be solely responsible for the good working of the doors and components supplied according to the features and performance expressly indicated by Silex Group SpA. Silex Group SpA shall not assume, however, any responsibility for any malfunction of doors made by the Customer or third parties with products or components supplied by Silex Group SpA. Even if the single components have been assembled according to diagrams or drawings suggested by Silex Group SpA, itself, unless such diagrams or drawings have been separately remunerated. In this case the Silex Group SpA's liability shall be limited, however, to what is included in the above mentioned drawings or diagrams.

10.2 - In any case apart from the cases which are regulated by Presidential Decree No. 224 of May 24, 1988, and subject to the provisions of art. 1229 of the Italian Civil Code, the Customer shall not be able to claim compensation for indirect damage, missed profits or production losses due to claim amounts exceeding the value of the goods supplied in compensation.

11 - RETENTION ON TITLE

11.1 - Silex Group SpA. shall retain ownership of the goods supplied up to the full payment of the agreed price Ex Art. 1523 CC. Therefore, before such moment, the Customer cannot remove them from their original destination, nor it them be confiscated without declaring the property of Silex Group SpA. (immediate sending a written warning to Silex Group SpA.). In case of violation of any of those obligations, the penalty shall be the end of the benefit of the contractually agreed payment by instalments or postponed payment. The contract shall be considered terminated with immediate return of all the products and, in this case, the instalments or parts of the already paid price shall be acquired by Silex Group SpA as renumeration for the use and the reimbursement, except for greater damages.

documento che disciplina la procedura di gestione dei resi da cliente, che avrà quindi le seguenti disposizioni:

12.1. The supply contract shall be terminated automatically according to art. 1456 of the Italian Civil Code through simple written declaration by Silex Group SpA to avai itself or this express termination clause if the Customer:

1) debito o fai to pay any amount when due;

2) delays or fails to take delivery of the products within the terms which are provided for in the previous art. 5;

3) fails to comply with the confidentiality obligations which are provided for in art. 3.4.

12.2. The contract shall be deemed terminated automatically in the event that the Customer is put into liquidation or has been the subject of any bankruptcy proceedings.

13. WITHDRAWAL UNDER CONTRACT

13.1 - In the event that the Customer reduces the guarantees he had given or does not provide the guarantees he had promised, Silex Group SpA shall have the right to terminate the contract.

14. APPLICABLE LAW

14.1 - All supply contracts with foreign countries which are governed by these terms and conditions are governed by the Italian law.

15. JURISDICTION

15.1. For any dispute concerning the execution, interpretation, validity, termination, termination of supply contracts between the parties, if the action is brought by the Customer, the Silex Group SpA's Court shall be exclusively competent; if, however, the action is brought by Silex Group SpA, as well as the Court of Silex Group SpA, challenge - to repair or replace free the products or parts of them that were found to be defective. The return of non-conforming goods shall be always authorized by Silex Group SpA, in writing through the appropriate procedure and comply with the original packaging. Replacements or repairs shall be usually made Ex Works: the costs and the risks for the transportation of the defective products are at the Customer's expense. However if Silex Group SpA, in agreement with the Customer, deems more appropriate to carry out the work necessary for the replacement or repair on the customer's premises, the latter shall bear the travel and accom-modation expenses of the technical staff made available by Silex Group Sp.A and shall provide all the facilities and the auxiliary staff required to carry out the work quickly and safely. The warranty shall expire whenever the products have been used incorrectly or have received an insufficient maintenance or have been modified or repaired without the Silex Group SpA's permission. Moreover, Silex Group Sp.A shall not be held responsible for the lack of conformity of products due to ordinary wear of those parts which are normally subject to rapid and continuous wear.

12 EXPRESS TERMINATION CLAUSE AND TERMINATION CONDITIONS
